Pratt, president of the Territorial Board of Health, at the national capital. Dr. Pratt leaves on the Wilhelmina today. In his absence, Prof. A. R. Keller, of the College of Hawaii, will serve as acting president of the board.

KAUAI OFFICER BRINGS IN OPIUM SMUGGLERS

Henry Blake, deputy sheriff of Koloa, Kauai, though apparently harmless, is nevertheless a "live-wire." He arrived this morning from Kauai in charge of two Chinese whom he arrested for the possession of opium. Blake arrested them at Koloa, where they landed from the steamer W. G. Hall, with a box of candy which contained ten tins of opium, valued at \$500.

As soon as Blake arrested the Celestials he sent a wireless to United States Marshal Hendry, with the result that Deputy Marshal Sherwood was sent to Kauai. This morning the Celestials appeared before the United States Commissioner Davis for preliminary hearing.

Blake said this morning that Long Hing has been traveling to and from Kauai for some time, and, having suspicion of him, decided to place him under arrest.

When the steamer Hall arrived in Nawiliwili the two Celestials landed there, and going overland to Koloa, their destination, went down to the landing and got the box of "candy." No sooner had they done this than Blake placed them under arrest and notified the Federal authorities here.

Among those who arrived this morning in connection with the opium case are Walter McBryde, collector of customs at Port Allen, and Police Officer John Naleimale.

PAVING DISPUTE IS ENDED; WORK TO BEGIN AT ONCE

Board of Supervisors and the Transit Co. Reach an Agreement

An end was put to the paving dispute between the board of supervisors and the Rapid Transit Company last night, when the board unanimously agreed to the company's proposition to lay lava blocks between and alongside the rails on King street, instead of lava blocks as prescribed by the board in July. Although bitulithic was not mentioned in the letter of the rapid transit directors to the board, that paving substance was accepted by implication for the space between the double tracks.

When the letter from the company had been read, it was moved by Low, seconded by Amann, that the communication be referred to the road committee and the attorney, to confer with the Rapid Transit Co. and report as next meeting.

L. Tenney Peck, the company's president, was asked to address the meeting, but before he complied there was a discussion.

Murray saw no necessity of referring the matter back. It was enough to inform the Governor and the superintendent of public works that the proposition of the company was satisfactory. Arnold agreed with this.

McClellan made a speech in favor of immediate settlement, saying the question of kind of blocks had been only one of time for getting the work done. He moved, seconded by Arnold, that the proposition submitted by the company be accepted by the board and that a copy of the communication be sent to the governor and the superintendent of public works.

Low contended that the board did not agree on lava but on lava blocks, and while the wood made a good pavement the company should give assurance that the blocks were seasonable.

Murray said they decided on lava blocks because these could be got first, but now Manager Ballentyne said the company could put down seasoned lava blocks in six weeks' time.

Roll call was started on the amendment but got no farther than Amann, who voted no, when Low interrupted with a demand for information on the question of seasoning. Both the motion and the amendment were then temporarily withdrawn to give Mr. Peck an opportunity to speak.

Mr. Peck, assuring the board that the company was willing to do what the board wished, proceeded to give technical reasons for preferring the wood over the stone blocks for King street, and on or other kind of block pavement instead of bitulithic next to the rails. Further, the company desired to lay the bitulithic on a base of

rolled rock instead of concrete. They wanted to be able to get at the rails and ties for repairs with the least possible trouble and expense. In one case the burden would be on the company, but if they had to tear the street all up the burden would not be on the company. The price of lava blocks had increased 50 per cent since the time he left for Washington.

Low kept up his questioning for a long time, but Road Overseer Caldwell's expert opinion which was asked for, did not sustain his objections.

Mayor Fern considered the question of seasoning was not up to the board, the company being responsible for making and keeping its part of the road in good condition.

McClellan having renewed his motion to accept the company's proposition, it carried unanimously.

DEFENSE MAY ASK FOR WARRANTS IN LIM CASE

The arrest of the girl's mother and brother by the defense on charges covering the translation of two letters written in Korean may be the next sensation in the Mary Lim case, in which Seung Sung Chin and Kim Sung Yuen are on trial for the abduction of the young Kawaihau Seminary student.

Letters were received by Seung, who is editor of the Korean Times, from both the mother and brother of Miss Lim, in which, it is said, they threatened to kill him. If Attorney Rawlins, counsel for Seung, receives the translations and satisfies himself that what he has been told is true, he says he will ask for warrants.

After a day's consideration of the evidence put on by the prosecution yesterday morning, Judge Monsarrat held that it was sufficient to interest a jury and bound both defendants over to the grand jury and the Circuit Court.

JOSSLYN'S FIRST TRIP ON STEAMER IN 16 YEARS

Captain Josselyn set foot on a steamship for the first time in sixteen years when he left on the Wilhelmina for San Francisco this morning. According to a statement made by the former captain of the bark Nuuanu, he has not been on a vessel propelled by steam since 1896, when he left New York for Scotland to get the Nuuanu, then just purchased by the Brewer interests for service between New York and Honolulu.

Captain Josselyn was relieved of his command several weeks ago, when the Nuuanu was sold by Brewer & Co., and from San Francisco he will go to Rhode Island, where he has a large acquaintance.

"I am sorry to leave Honolulu," declared Captain Josselyn yesterday, "but I expect to return here one of these days."

8 TRUE BILLS AGAINST LYMAN

HILO, Sept. 11.—After having been in session since Monday morning, the grand jury made a preliminary report yesterday, and returned eight true bills against Rufus A. Lyman, former clerk of the license commissioners, charged with embezzlement. The indictments cover alleged defalcations amounting to over \$3000. Lyman will enter his plea tomorrow.

The grand jury examined a number of witnesses, including members and officers of the license commission and several liquor dealers who paid for licenses which it is charged were never delivered or entered upon the books.

In his charge to the grand jury Judge Parsons urged a full investigation of all charges made or hinted at.

BICYCLE AND WATCH THIEVES GET 4 MONTHS

Ludwik Lockoff, a Russian, was up before Judge Monsarrat's court this morning on the charge of stealing a watch from a Portuguese named Antonio. According to Antonio's testimony, he was standing in front of a saloon on river street last night with a friend to whom he was trying to sell his watch. The friend took the watch and after he had gotten through looking at it he passed it back to Antonio, and as he did it the Russian came along, snatched the watch and ran up the street. Antonio gave chase but stumbled and fell, and the Russian got away. This morning Antonio saw the Russian and had him arrested. An officer went to his room and the watch was found on the table. Antonio brought his friend along to the court as a witness and their testimony, together with the finding of the watch was sufficient to prove the Russian guilty. He got four months.

Joseph Madison, who said he was a soldier, was sentenced to five months after being found guilty of purchasing stolen property in the shape of a bicycle belonging to a Japanese who runs a clothes cleaning establishment on Beretania street.

The Japanese said that while he was in a barber shop getting a hair cut his bicycle, which was left outside, was stolen. Later, a man came into a bicycle shop on King street near 135th with the Japanese' bicycle, which he tried to sell for ten dollars. This man, it appears, was Madison, who stated that he bought the bicycle from a boy for a dollar and a half. He was found guilty of purchasing stolen property, and after a lecture by Judge Monsarrat, received sentence.
